

November 19, 2015

Mr. Kevin Smith  
President  
Western Line Builders Inc.  
525 Western Street  
Wells, Nevada 89835

Dear Mr. Smith:

For the past three years Coeur Rochester contracted all power line construction and maintenance activities to Western Line Builders Inc. This included a thorough maintenance survey, two fiber optic installations, and three powerline additions. Western Line Builders has also been available on three occasions where Coeur required emergency assistance in regards to our distribution system where Western Line Builders was able to quickly and safely get our process back on line. Western Line Builders Inc. was able complete the contracted work as specified, on time, and on budget.

Coeur is extremely appreciative of Western Lines commitment to provide us with quality and timely service with a very high degree of integrity and professionalism.

We look forward to working with Western Line Builders in the upcoming years.

Sincerely,
