

Letter of Recommendation

March 10, 2023

To Whom it May Concern:

Western Line Builders completed two substantial projects for Powder River Energy in the last year. The work included the rebuilding of seven miles of 3-phase distribution line with 336 conductors (hot pole changeouts and pulling in new conductor), and another four miles of 3-phase rebuild with 1/0 wire. Western Line Builders performed the work on these projects in a timely and professional manner. The work was adequately staffed and supervised, and we look forward to the opportunity to work with Western Line Builders on future projects.

Sincerely,

A handwritten signature in black ink, appearing to read "Joe Nelson".
