Mr. Kevin Smith, President
Western Line Builders Inc.
525 Western Street
Wells, Nevada 89835

Dear Mr. Smith:

Over the past five years since 2011, Newmont Mining Company has selected Western Line Builders Inc. for at least two different capital projects where overhead power lines and substation construction became critical new mine infrastructure. The work performed included procurement and installation of overhead and ground mount transformers along with fiber optic installations. Western Line Builders Inc. has successfully demonstrated working with both major power utilities at two new start-up mines for Newmont over this time period. Western Line Builders Inc. was able to quickly and safely get our projects completed as specified, on time, and on budget with exceptional work schedule flexibility.

We appreciate Western Line Builders' commitment to quality, integrity, and timely service with sound professionalism.

We look forward to working with Western Line Builders, Inc. on future capital projects.

Sincerely,

A handwritten signature in blue ink, appearing to read "Rocky Pray". The signature is fluid and stylized, with a long horizontal stroke extending to the right.

Rocky Pray
